EXPERIENCE

MSP Account Manager / IT Support

IntermixIT • Full-time, Remote • Sep 2024 – Mar 2026 (1 yr 7 mos)

- Supported ~70 client accounts in an MSP environment, managing ~50 service tickets per month
- Served as primary liaison between clients and technical teams to ensure timely issue resolution
- Created, tracked, and prioritized tickets using Autotask PSA
- Led and improved Quarterly Business Reviews (QBRs), increasing presentation quality and delivery efficiency
- Built Power Automate workflows to reduce manual tasks and improve internal processes
- Collaborated with engineers on project planning, procurement, and service delivery

Order Picker

ABARTA Coca-Cola Beverages, LLC • Full-time • Sep 2023 – Apr 2024 (8 mos)

- Maintained high productivity completing hundreds of daily orders in a fast-paced warehouse environment
- Ensured accuracy and quality control in order preparation and shipment processes
- Collaborated with team members and supervisors to meet daily operational targets

PROJECTS

AI Customer Support Automation System

Zapier • ChatGPT (OpenAI) • Airtable • Gmail • Slack | May 2026

Multi-path Zapier automation that classifies inbound support requests with ChatGPT, routes them by type (urgent / billing / technical / general), generates context-aware email replies, and logs records to Airtable.

AI Image Generator

Python • Azure OpenAI • Microsoft Foundry • Streamlit | Apr – May 2026 • ai-image-app-sl8hgxdvneslevt4usqhbt.streamlit.app

Deployed a web app generating images from text prompts via Azure OpenAI and Microsoft Foundry. Implemented prompt enhancement, customizable styles, and secure API handling.

AI Text Analysis App

Python • Azure AI Language • NLP • Streamlit | Mar – Apr 2026 • ai-text-analysis-app-o6szo8hc52a35muuqrsd9v.streamlit.app

NLP app that detects language, extracts named entities, identifies PII, and generates redacted output for compliance and document workflows.
