

MAX MAGULICK

IT Support | MSP Experience | Automation Builder

maxmagulick@gmail.com • Pittsburgh Area • linkedin.com/in/max-magulick • maxmagulick.github.io

SUMMARY

Early-career IT professional with 1.5 years of MSP experience coordinating support for approximately 70 client accounts. CompTIA A+ Core 1 certified and Microsoft 365 certified (MS-900), currently studying for A+ Core 2. Build AI and automation projects on my own time with Zapier, n8n, Python, and Azure AI to strengthen my technical skills. Seeking a help desk, desktop support, or IT support role.

CERTIFICATIONS & CURRENT STUDY

CompTIA A+ Core 1 (220-1101) CompTIA • Passed July 24, 2026

CompTIA A+ Core 2 (220-1102) CompTIA • In Progress

Microsoft MS-900 Microsoft 365 Fundamentals • Certified

Currently learning: Microsoft Intune · Active Directory · n8n automation · Python and REST API fundamentals

EXPERIENCE

Account Manager / IT Support

IntermixIT • Full-time, Remote • Sep 2024 – Mar 2026 (1 yr 7 mos)

- Managed communication for approximately 70 client accounts in an MSP environment
- Coordinated approximately 50 monthly service requests using Autotask PSA
- Served as the liaison between clients and technical engineers, tracking requests through the full ticket lifecycle
- Assisted with client onboarding, procurement, scheduling, and Quarterly Business Reviews
- Maintained client records across Microsoft 365 and CRM platforms

Order Picker

ABARTA Coca-Cola Beverages, LLC • Full-time • Sep 2023 – Apr 2024 (8 mos)

- Maintained high productivity completing hundreds of daily orders in a fast-paced warehouse environment
- Ensured accuracy and quality control in order preparation and shipment processes
- Collaborated with team members and supervisors to meet daily operational targets

PERSONAL PROJECTS

Self-directed projects built outside of work to learn practical automation and cloud skills.

AI Customer Support Automation System — **Personal Portfolio Project**

Zapier · OpenAI · Google Forms · Airtable · Slack · Gmail

Classifies inbound support requests with OpenAI, routes them by type, generates AI-assisted email replies, logs records in Airtable, and sends Slack alerts for urgent issues.

AI Content Repurposing Workflow — **Personal Portfolio Project**

n8n · OpenAI · Notion · JavaScript · HTTP APIs

Retrieves YouTube transcripts, generates social posts with OpenAI, stores drafts in Notion behind a human approval step, then publishes to LinkedIn and X and updates status automatically.

AI Image Generator — **Personal Learning Project**

Python · Azure OpenAI · Streamlit • ai-image-app-sl8hgxdvneslevt4usqhbt.streamlit.app

Built while learning Azure AI and Streamlit. Focused on Azure OpenAI endpoints, API authentication, environment variables, and cloud deployment.

AI Text Analysis App — **Personal Learning Project**

Python · Azure AI Language · Streamlit • ai-text-analysis-app-o6szo8hc52a35muuqrsd9v.streamlit.app

Built while learning Azure AI Language Services. Covers language detection, named entity recognition, PII detection and redaction, sentiment analysis, and deployment.

SKILLS

Technical

IT & Support: Microsoft 365 · Autotask PSA · Windows · Hardware Troubleshooting · Networking Fundamentals · CompTIA A+
Automation & Dev: Python · JavaScript · REST APIs · Git · Zapier · n8n · Azure AI · OpenAI APIs · Streamlit · Notion · Airtable

Soft Skills

Client Communication · Documentation · Problem Solving · Organization · Adaptability · Fast Learner · Collaboration · Time Management · Attention to Detail
